

**CONSTRUCTION WORKPLACE SAFETY TRAINING (CWST)**

41 King St Unit 2,  
Barrie. ON L4N 6B5

Dear CWST staff;

July 19, 2018

I've had a couple "pop-ins" to my office this morning from the guys that attended your *Basics of Supervision* course over the past couple of days. The stand-in Foreman in particular laid it out pretty well for me:

"Of all the courses I have attended relating to this topic -which cost thousands of dollars- this one was by far the best, and that's not just from me; that's from every one of my colleagues that were there as well! We learned more applicable [boots on the ground] information here, in two days of training, than we did on any other program."

They all really appreciated the learner friendly atmosphere and the openness to discussion.

Anyway folks, it's so nice to get that kind of feedback after having sent our staff out for training and I thought you should know.

Awesome job!!

Sincerely,

*Don J. Nelson*
